# REAL LUXURY FOR REAL LIVING

Life is defined by the unexpected. And the inspired among us embrace the possibility of every moment, thrive on the opportunity of change. It is they who inspire our idea of luxury. While others set luxury on a pedestal, raise it above the realm of the everyday, INFINITI vehicles have always been built according to how you really live – from the way they're shaped on the outside and inside, to how they move through the world and empower your abilities to do the same.

Now that idea extends to your experience of buying, owning and servicing your INFINITI – meeting you how you need it, when you need it. The time to redefine what 'premium' means has finally arrived. We define it with only one rule: Luxury Should Be Lived In.

# SHAPED TO SATISFY HUMAN SENSES

## DESIGN FLOWS FROM EMOTION AND INTRIGUE

Automakers build vehicles to mathematical perfection. At INFINITI, our lineup is crafted to human perception. Like the shifting mood of every day, exterior styling features subtle curves and creases that reveal themselves as the lighting changes, giving subtle expression to the bold shapes and daring proportions. Enter the vehicle, and the feeling is one of an interior created with intention – to elevate the senses. The result is a design sensibility as dynamic as you.

### 'TSUYA' MEANS DEPTH AND DIMENSION

An aesthetic should captivate you as the details emerge over time, rather than everything revealing itself all at once. Across the INFINITI line, our colours contain multitudes, our shapes change depending on how you look at them. Such as the creases on the D-pillar of the Q60 that only show themselves in the right light, at certain angles. Or the way the QX50 clamshell hood overlaps the fenders, as if the entire vehicle materialized from a unified whole. We call this 'Tsuya' – creating a lasting sense of interest that never wears out its welcome.

### OPTICAL, NOT NUMERICAL

Our interiors are made not to perfect the machine, but to please the driver. For example, in the area where the dashboard meets the door, the tolerance between the two panels varies to create the illusion of one line made from a single brushstroke. It's not mathematically exact, but visually precise.

### FINGERTIPS DON'T LIE

The surfaces you touch were specially crafted to please your fingertips. We studied human touch for two years to find that people prefer surfaces with texture similar to the width and depth of the ridges of a fingerprint. So areas like the armrest and door panel are truly soothing.

### CONTOURS OF SOUND

Beauty with purpose creates harmony. The speaker grilles on the Bose® Performance Series audio system are not only visually impressive – the pattern, size, and shape of the holes optimize the flow of sound. The result is clearer, fuller audio – and a cabin that indulges all the senses.

# INGENUITY FOR A LIFE

# ALWAYS IN MOTION

## FORWARD-THINKING EASES THE DAY-TO-DAY

When it comes to keeping you connected, stay on top with innovation that constantly pushes the boundaries – and empowers you to go further. INFINITI InTouch™ combines leading navigation, security, entertainment and concierge technology in a state-of-the-art dash-mounted system. To help you stay safe, enjoy even more convenience, and maintain a firm control of your journey.<sup>1</sup>

### DE-STRESS THE COMMUTE

Take the tedium out of your travels. ProPILOT Assist can automatically react to the flow of traffic by braking, coming to a complete stop, and accelerating again when the pace picks up – even helping steer around gentle curves. The result is a highway drive made simpler.<sup>2</sup>

### YOUR LIFE ON YOUR PLATFORM

Apple CarPlay® integration lets you bring the iPhone® experience along for the ride. Or make Android Auto™ your preferred driving companion.<sup>3</sup> When you can choose the platform you prefer, connection fits your unique lifestyle.

## ENGINEERED TO AMPLIFY EVERY MOVE

There are two ways to experience performance: with a stopwatch, or with your heart rate. We believe that how the driver feels while in motion is what matters most. We design and test from that foundation, then accelerate what's possible with technology. Like a fully digital handling system that helps you corner like a pro, turbochargers that spin faster for the thrill to last longer, or entire engines that change to meet your needs in the moment.

### POWER NOW, EFFICIENCY NEXT

When power is what you need, the VC-Turbo™ engine changes the compression ratio to optimize output.<sup>4</sup> Then for efficiency, the ratio can expand for greater mileage. Others claim both power and efficiency – we transform it.

### THE THRILL HAS NO PLATEAU

There's a difference between speed itself, and the exhilaration it brings. Our engines are tuned to maximize the driver's feeling of acceleration. By releasing torque over a broader rev range, INFINITI vehicles feel like a limitless rush. We call it Swell.
